

Marathon Training Plan: Intermediate

If you've run at least a half marathon before, and maybe even a marathon but this time you want to put some more structured training together then this is the plan for you. With some serious threshold intervals to get stuck into the plan will get you fit for the marathon.

It's important that you run at the right effort level and intensity to ensure you're training to reach your full potential. Most people think that training "harder is better" so we end up running too quickly, which can result in feeling tired, getting ill or picking up an injury. Understanding what each session is trying to achieve and how it should feel is the way to train smart. Here's our guide to the running sessions that you'll find mentioned in your training plan and a note of how they should feel as a 'talk test'.

Type of Session	PERCEIVED EFFORT LEVEL (1-10)*	HOW IT SHOULD FEEL - "THE TALK TEST"
Recovery / Easy Run	6-6.5	You can speak in complete sentences, totally conversational, you're running relaxed, enjoying it and not worrying about the watch
Steady Effort Run	7-8	You can speak in short sentences but have a slight pause on your breath. It sits between Easy and Threshold running.
Threshold runs	8-8.5	You could speak 4-5 words if somebody asked you a question. Your breathing is more laboured and you know you're working, we call this 'controlled discomfort'
Long Run	6.5-7	You're in control, running fluidly and very much at a conversational level but you'll feel slightly flushed with a gradual build up of muscular fatigue
Marathon Pace	7.5-8	You can speak in short sentences, you have a slight pause on your breath but are not out of breath, relaxed and in control
10km / Speedwork	9-9.5	You can say only 2-3 words maximum and are out of breath but still know that you could do more if you had to

Making the Training Plan work for you

You'll probably not be able to follow the plan as it is set out. We've written our plans with this in mind:

Key sessions for each week are highlighted in Red. These are the non-negotiable sessions that you need to fit into your diary one way or view in order to run your best race.

Avoid key sessions on back to back days. You need to recover after the harder sessions, they can't be crammed into a few days within your week. The only exception to this is a key session followed by an Easy Long Run, but this is for more advanced runners.

Sessions in Black are the supplementary training within the plan. These sessions are the ones to drop in your week if you can't fit it all in, although we hope you can find the time.
