Bloodwise

Beating blood cancer since 1960

About us

We're the UK's specialist blood cancer charity and our vision is clear: we're here to beat blood cancer and we've been working to do this since 1960.

We fund world-class research; provide information and support to patients and their loved ones; and raise awareness of blood cancer. Since 1960 we have invested more than £500 million in blood cancer research in the UK. Where we've invested, survival rates and quality of life have improved.

We're proud to say that UK blood cancer research leads the world, thanks to the money we've been able to invest because of our supporters and fundraising. But we still have so much more to do: blood cancer is the 5th most common cancer and sadly it is the 3rd biggest cancer killer in the UK claiming more lives than either breast or prostate cancer.
