

Senior Major Gifts Manager

Bloodwise, the UK's leading blood cancer charity, is looking for a talented, motivated and highly experienced major gifts professional to join the team.

The successful candidate will support significant voluntary income growth by identifying and encouraging wealthy philanthropists to find, be inspired by, and give towards projects at Bloodwise that align with their personal interests.

The role also has line management responsibility over a Major Donor Fundraiser role which will also be responsible for managing a portfolio of philanthropic relationships.

You can apply for this opportunity by filling in our application form and submitting it on our website by **9am on Tuesday 19th March 2019**.

Please note that we may bring forward the closing date at our discretion.

ABOUT US

We are Bloodwise, and we want to change the world for all blood cancer patients. Every year we stop more people dying of blood cancer and our researchers are even working to stop people developing blood cancer in the first place.

We're the UK's specialist blood cancer charity and our vision is clear: we're here to beat blood cancer and we've been working to do this since 1960.

We fund world-class research; provide information and support to patients and their loved ones; and raise awareness of blood cancer. Since 1960 we have invested more than £500 million in blood cancer research in the UK. Where we've invested, survival rates and quality of life have improved.

We're proud to say that UK blood cancer research leads the world, thanks to the money we've been able to invest because of our supporters and fundraising. But we still have so much more to do: blood cancer is the 5th most common cancer and sadly it is the 3rd biggest cancer killer in the UK claiming more lives than either breast or prostate cancer.

We improve the lives of blood cancer patients with cancers such as leukaemia, lymphoma and myeloma because we believe everyone should be able to live their life to the full. We've been working to beat blood cancer for over 50 years and we won't stop until we do. Be a part of our story and help us change the world.
